

SYSTEM INTEGRATOR SELECTION SERVICES

ACCELERATE YOUR TECHNOLOGY DEPLOYMENT WITH EXPERT GUIDANCE

Technology adoption is a key lever in the never-ending quest to deliver on the customer demands of faster, better, and cheaper, however, navigating the immense landscape of hardware, software, and system providers is a daunting task. It takes time, a methodical approach, and experience.

Regardless of your particular circumstances, Catalyst Connection can support you with System Integrator (SI) Selection services. Applying to a range of technology and application areas, this customizable service will mesh seamlessly with your team to deliver on your technology selection and deployment projects.

TECHNOLOGY AREAS:

DATA VISUALIZATION

DATA ANALYTICS

IOT/CONDITION MONITORING

ROBOTICS & AUTOMATION

AI

OUR SI SELECTION SERVICES:

Assessment & Opportunity Valuation: Drive your technology deployment based on the needs of your business and operation. We will help you evaluate the impact and complexity of potential projects to prioritize and develop a technology roadmap.

Provider Search: Let us use our deep 3rd party network and experience to identify providers qualified in your specific application.

Requirements Definition/Request for Proposal (RFP): Obtaining proposals for consideration starts with defining your requirements and developing an RFP package. We manage all communication and coordination with prospective providers on your behalf.

Proposal Review: We have developed a proposal rating matrix to perform an objective, organized evaluation.

Comprehensive SI Selection Project: We will partner with your team from start to finish of your project.

CATALYST CONNECTION
WE GROW MANUFACTURING

WHY WORK WITH CATALYST?

Expertise: Dedicated team focused on small and medium manufacturing

Customized Solutions: Tailored strategies for your unique needs

Proven Results: Hear from our satisfied customers

Affordable & Efficient: Access grant programs to lower your costs

“The knowledge and experience [Catalyst] brought was a huge asset to us!”

-Paul Labuda, Dir. Finance & IT, Clark Metal Products

“Catalyst was instrumental in helping us bring this project to fruition. The expertise and focus they brought to the table were a big asset to the team.”

-Ken Hoff, President, Perpetual Enterprises
